Results-driven Java Developer with 3.8 years of experience in designing, developing, and optimizing enterprise-scale applications in the banking and financial services domain. Skilled in Java, Spring Boot, RESTful APIs, SQL performance tuning, and ReactJS delivering high-availability systems supporting thousands of daily transactions. Hands-on experience across all phases of the Software Development Lifecycle (SDLC) from requirements analysis to deployment within Agile Scrum environments. Recognized for implementing performance improvements, maintaining code quality through reviews and documentation, and collaborating effectively with cross-functional teams to deliver defect-free solutions.

CORE TECHNICAL SKILLS

- **Backend Development:** Java (Core, J2EE), Spring Boot, JSP, Servlets
- **Frontend Technologies:** JavaScript, jQuery, Bootstrap, JSON and Hands On experience of ReactJS.
- **Databases:** MySQL, SQL optimization, stored procedures, performance tuning
- **Tools & Platforms:** Git, Maven, Eclipse, IntelliJ IDEA, Postman
- **Concepts:** OOP, Multithreading, Java-8 features, Microservices, MVC, Layered Architecture, Web service Design, RESTful APIs, SOAP API, Secure Coding, Unit Testing, SMS engine design
- **Methodologies:** SDLC, Agile (Scrum), Release Management, Code Review, Technical Documentation
- **Domain Expertise:** Banking & Financial Services (BFSI), Enterprise Web Applications

WORK EXPERIENCE

Senior Software Engineer

Tata Consultancy Services (TCS), Mumbai

2022-Present

- Partnered with project managers, business analysts, and QA teams to convert business requirements into technical deliverables — reducing rework by 10% per sprint.
- Participated in Agile ceremonies (daily stand-ups, sprint planning, retrospectives) to streamline development and ensure timely release of features.
- Designed and developed banking modules using Java, J2EE, and Spring Boot MVC, supporting enterprise web applications handling 50K+ daily banking transactions with 99.9% uptime.
- Built UI components using React (Hooks like useState/useEffect), integrated REST APIs with Axios/Fetch, implemented state management using Context API, and used React Router for navigation.
- Designed and implemented an SMS engine using SOAP APIs, streamlining third-party communication and enhancing customer engagement through timely message delivery.
- Contributed to system enhancement, debugging, and performance optimization reducing response latency by ~20%.
- Mentored 3 junior developers, improving code consistency and adherence to SDLC best practices.
- Supported production issue triaging and root cause analysis, ensuring zero critical incidents during key release cycles.
- Led code reviews and environment management activities, improving code quality and deployment efficiency by 15%.
- Optimized SQL queries and caching logic, reducing API response latency by ~20% and improving database query performance.
- Authored and maintained design documents, release notes, and system flow diagrams to support ongoing development and knowledge transfer.

Key Achievements:

- Top Performer of the Year (2024–25) – Delivered critical banking modules with zero production defects.
- Star of the Month (Nov 2023 – Jan 2024) – Recognized for technical innovation and reliability in delivery.

EDUCATION

Bachelor's Degree in Petrochemical Engineering	9.08 CGPA
Maharashtra Institute of Technology, Pune	2015-2019

Skill Development & Transition (2019–2022):

- Completed certified training in Java, JavaScript, SQL, and Full-Stack Development, including hands-on project work simulating enterprise applications

Certifications & Technical Courses

-
- JavaScript Certification – HackerRank (2024)
 - The Complete JavaScript Course – Udemy (2024)
 - GitHub Essential Training – LinkedIn Learning (2023)
 - Spring Boot, SQL, and Full-Stack Development (Self-Learning & Project Practice – LeetCode, w3schools)

ADDITIONAL INFORMATION

-
- **Languages:** English, Hindi, Marathi
 - **Preferred Location:** Pune / Mumbai
 - **Availability:** Immediate(On Notice Period)
 - **Interests:** Exploring Microservices, Cloud Integration, and Scalable System Design
